

# MOSS CREEK MARINES OPERATION HELPING HEROES

Helping With K9's For Warriors Service Dog

**ADOPTED HERO NO. 30**  
**Cpl. TYLER WITH HEATHER**

## **WARRIOR-CANINE STORIES: TYLER & HEATHER**

Tyler served in the US Marine Corps, but he prefers to talk about his new service dog, Heather, and his training at K9s For Warriors. Tyler first heard about K9s For Warriors through his psychiatrist. He then did some research of his own.

“From the research that I completed, K9s came out on top every time. K9s was the one to help me become the husband and father that I strongly wanted to be.”

Tyler’s goals for the program were similar to what other veterans with PTSD hope for.

“I hope to be able to experience the present and make meaningful memories with my wife and son, and not worry about what fears I am thinking.”

Tyler and Heather, a German Shepherd, graduated with nine other warrior-dog teams in the October 2017 class. He has this to share about his experience in the program:

“I would love for every American to be able to know of the organization, and for every veteran suffering from PTSD that they get the opportunity to try it out for themselves.”
