Helping With K9's For Warriors Service Dog

**ADOPTED HERO NO. 44
SGT. JESSE WITH CORA**

JESSE & CORA

Jesse Cole's role in the Marine Corps was as a crew chief. He found K9s For Warriors through the Internet and, as a Florida veteran, completed his training at K9s For Warriors' Gold Family Campus near Gainesville, FL. He was matched with an Anatolian Shepherd mix dog named Cora, who was also trained at the Gold Family Campus.

Jesse said he wanted to come to the K9s For Warriors program because he needed a "companion and friend." He hoped the training with his new Service Dog would "help me leave the house and to be a part of my family." On progressing through the training program, Jesse said: "The training puts lots of stress on you but in a very controlled manner. It's hard in the moment but good. Drop expectation and open your heart and you will exceed."

As of April 2019, K9s For Warriors has graduated 534 warrior-canine teams.
