Helping With K9's For Warriors Service Dog

**ADOPTED HERO NO. 50
CPL. JENNIFER WITH DB**

WARRIOR-CANINE STORIES: JENNIFER & DB

Jennifer Dillow spent six years in the Marine Corps as an Embarker. She was in charge of deployments and the logistics of them. Although she says she misses being in the service, she also realized she needed to heal from PTSD.

“I have three young boys that deserve a mom that is physically and emotionally present. I not only want to be involved in society, I NEED to be involved. I want my life back. I’ve found how much a service dog could potentially help me and I need to not let my PTSD control me anymore.”

To take control of her healing, Jennifer applied to K9s For Warriors and arrived for the August 2019 class. There, she was paired with rescue dog and Lab mix, DB, and began to reclaim her life.

“Being a part of K9s For Warriors is one that I will never regret. They have opened their heart to help save people like me. Pairing me with my dog has made me realize that I can actually live.”

Jennifer and DB continue their new path together at her home in Yuma, Arizona.

As of August 2019, K9s For Warriors has graduated 564 warrior-K9 teams.
