Helping With K9's For Warriors Service Dog

**ADOPTED HERO NO. 58
CPL. DAVID WITH CALLIE**

WARRIOR-CANINE TEAM: DAVID & CALLIE

David is a U.S. Marine veteran from Kingsport, TN. He served as an Infantry and Fire Team Leader and retired as a corporal. David's therapist suggested that he look into K9s For Warriors as a therapeutic alternative to medications to assist him in mitigating his PTSD symptoms, and David is thankful that he found the program.

"Every morning since we met, Callie wakes me up by licking me in the face," David said. "It reminds me that today is a new day."

David is hopeful that Callie will help him go back to living an independent lifestyle. He is a family man and he is confident that Callie will help him reconnect with his family so they can once again see the real David. He is looking forward to joining them in going out to places that he previously avoided.

David is excited to be paired with his new battle buddy, Callie, and is thankful that Callie will never judge him for who he was and that she will always have his six.

As of October 2020, K9s For Warriors has graduated 647 warrior-canine teams.
